WATERUPS FROM DOWN UNDER WATER WICKING SYSTEM

On behalf of the students, staff, parents and learning community at Urbenville Public School, I would like to convey my gratitude to Ian Collins from WaterUps for their generous donation of a WaterUps water wicking system for our school garden. Being a small rural school located in an isolated geographical area that is doing it tough with the drought, your innovative water wicking system will allow our school garden to more efficiently use our water supply in order to harvest the produce that we utilise in our school canteen.

The students had a wonderful time assisting with the installation and are looking forward to expanding the range of fruit and vegetables we currently grow. Thanks again for your generosity.

To Our Valued Clients,

Due to the sale of our current premises in Urbenville and the inability to continue the lease of the building, Killarney Vets would like to inform you of changes to our clinic in Urbenville. We will still be servicing the area on a Tuesday and Thursday however our small animal consultations will be run from the Urbenville Memorial Hall.

This change will be effective from the 5th of November 2019. Our phone number will still be the same as a diversion to the Killarney Clinic will be in place.

As has been the case for some time, all small animal surgical procedures are performed at the Killarney clinic. We will still be offering a drop home service on a Tuesday and Thursday morning however all surgeries will need to be taken too and admitted at the Killarney practice.

We will continue to provide a high level of service for Urbenville and surrounds from our new location. There will no doubt be some small teething issues, but we hope everyone works with us to make this transition as smooth as possible.

Kind regards,

Killarney Vets
